AIM AND SCOPE

2024 — 17th International Scientific Conference on Informatics is a biennial international forum which gives room for scientists, experts in computer science and professionals in new emerging fields of informatics to present original research results, to share experiences and to exchange ideas about transferring theoretical concepts into real life. The conference provides a unique opportunity for establishing and maintaining professional relationships of widely recognized scientists between each other in specific areas of computer science.

Topics are included but they are not limited to the following:

- Cybersecurity and Cyber Resilience
- Data and Knowledge Bases
- Software Engineering
- Theoretical Computer Science
- Artificial Intelligence
- Education and Learning Analytics
- Virtual Reality and Computer Games
- Applied Informatics and Simulation
- Computer Networks and Telecommunication
- Distributed Systems
- Trends in Intelligent Systems
- Programming Paradigms, Programming Languages
- Human-Computer Interaction

ABSTRACT SUBMISSION

Abstracts shall be registered through the EasyChair system. Abstract should not be more than 150 words long including the title, name(s), affiliation of author(s) and proposed topic.
